

Fire Stopper – Job Specification

Location: Ongar, Essex (with travel to client sites across London and the South East)

Contract Type: Full-time, Permanent

Salary: Competitive, based on experience

Reports To: Passive Fire Protection Supervisor

About Us

At LMAC, we specialise in delivering high-quality passive fire protection solutions across residential, commercial, and industrial sectors. Our services include fire stopping, fire door installations, and fire compartmentation. We are committed to excellence, safety, and innovation, ensuring our clients receive the best possible service.

Role Overview

We seek a qualified and experienced Fire Stopper to join our dynamic team. The successful candidate will be responsible for installing and maintaining fire-resistant systems and materials to prevent the spread of fire and smoke within buildings, ensuring compliance with current regulations and standards. This role involves working on various projects, providing our clients with reliable and efficient passive fire protection services.

Key Responsibilities

- Install fire stopping systems, including sealants, wraps, and barriers, in accordance with BS 7671 and other relevant standards.
- Identify and seal potential fire hazards, such as openings in walls, floors, and ceilings.
- Interpret technical drawings and specifications to execute installations accurately.
- Conduct inspections and assessments to ensure fire safety compliance.
- Collaborate with other construction professionals to integrate fire-stopping measures seamlessly.
- Maintain accurate records of work performed and materials used.
- Ensure all work complies with health and safety regulations and company policies.

Essential Qualifications and Experience

- NVQ Level 2 in Passive Fire Protection or equivalent.
- Valid CSCS card.
- Minimum of 2 years' experience in a similar role, preferably within residential, commercial, or industrial settings.
- Proficient in installing fire-resistant materials and systems.
- Full UK driving licence.

Desirable Qualifications and Experience

- FIRAS certification or equivalent third-party accreditation.
- Experience with fire door installation and maintenance.
- Familiarity with various fire-stopping products and materials.
- First Aid certification.

Skills and Attributes

- Strong technical knowledge and practical skills.
- Excellent problem-solving abilities.
- Effective communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Attention to detail and commitment to quality.
- Adaptability and willingness to learn new technologies and methods.

Working Conditions

- Standard working hours: Monday to Friday, 8:00 AM – 5:00 PM.
- Overtime may be required to meet project deadlines.
- Work may involve travel to various client sites across London and the South East.
- Use of personal protective equipment (PPE) is mandatory on all job sites.

Fire Stopper – Job Specification

Benefits

- Competitive salary package.
- Company vehicle and fuel card for work-related travel.
- PPE provided.
- Opportunities for professional development and training.
- Pension scheme and holiday entitlement.
